March 18, 2020

Silver Hill Hospital’s Outpatient Department Launching Online Services

During this time of uncertainty, protecting your health and the health of your loved ones is our top priority. In accordance with Centers for Disease Control and Prevention recommendations, Silver Hill Hospital will suspend all in person outpatient services as of Wednesday March 18, 2020. This includes all individual, group, and family education offerings.

We are transitioning to a virtual format utilizing the Microsoft application Teams. Staff will be reaching out to patients individually over the next few days to help set up, launch and familiarize you with this platform. We’ve attached a tip sheet to help you access secured email invitations and the virtual meetings themselves. If you are interested in receiving telehealth services, please provide your consent here. If you are not interested in participating virtually please contact Adrienne Alexander.

For those who participate in a DBT program, our Wednesday night group for families will also be virtual. If your family has not already provided us with an email address, please have them email Jenn Morabito to be added to our distribution list.

We understand how hard this transition may be for you and your family. This time, more than ever, it is important to structure your days to combat feelings of isolation. There are many resources available online that you can access. Attached are a few we have found.

Thank you for your understanding.

Sincerely,

Andrew J. Gerber, MD, PhD
President and Medical Director
